

Your business  
is **not behind.**

It is just  
**learning** too slowly.

**Every week,  
the market leaves clues.**

**A buyer  
asks.**

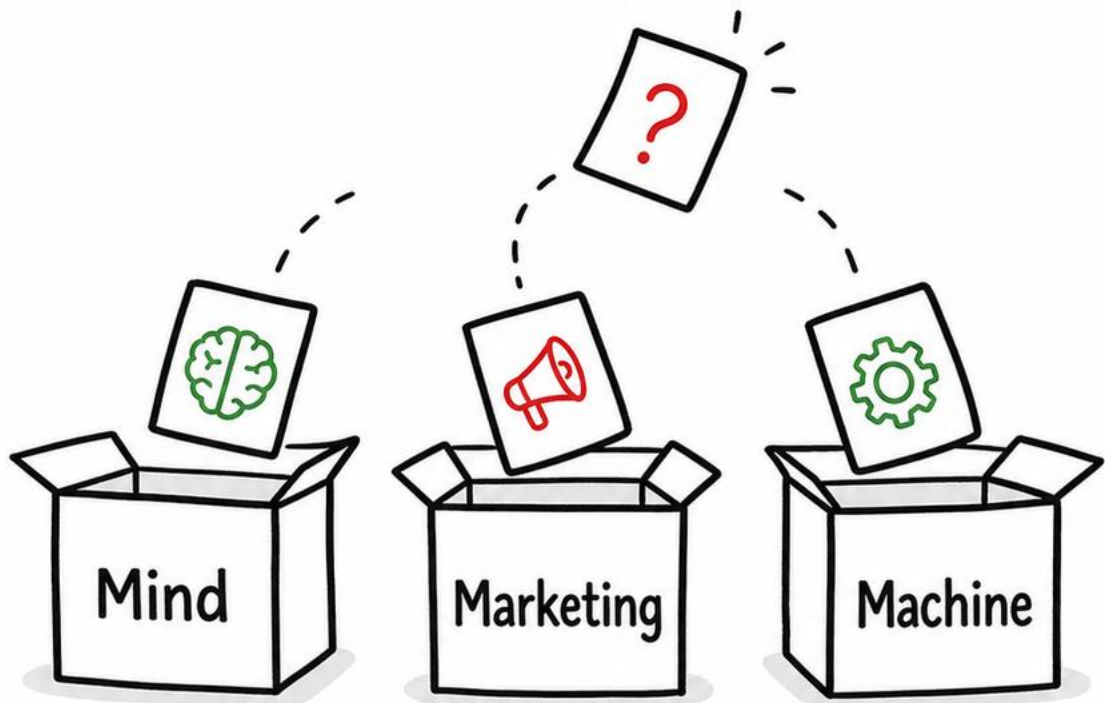

**A lead  
hesitates.**

**A customer  
complains.**

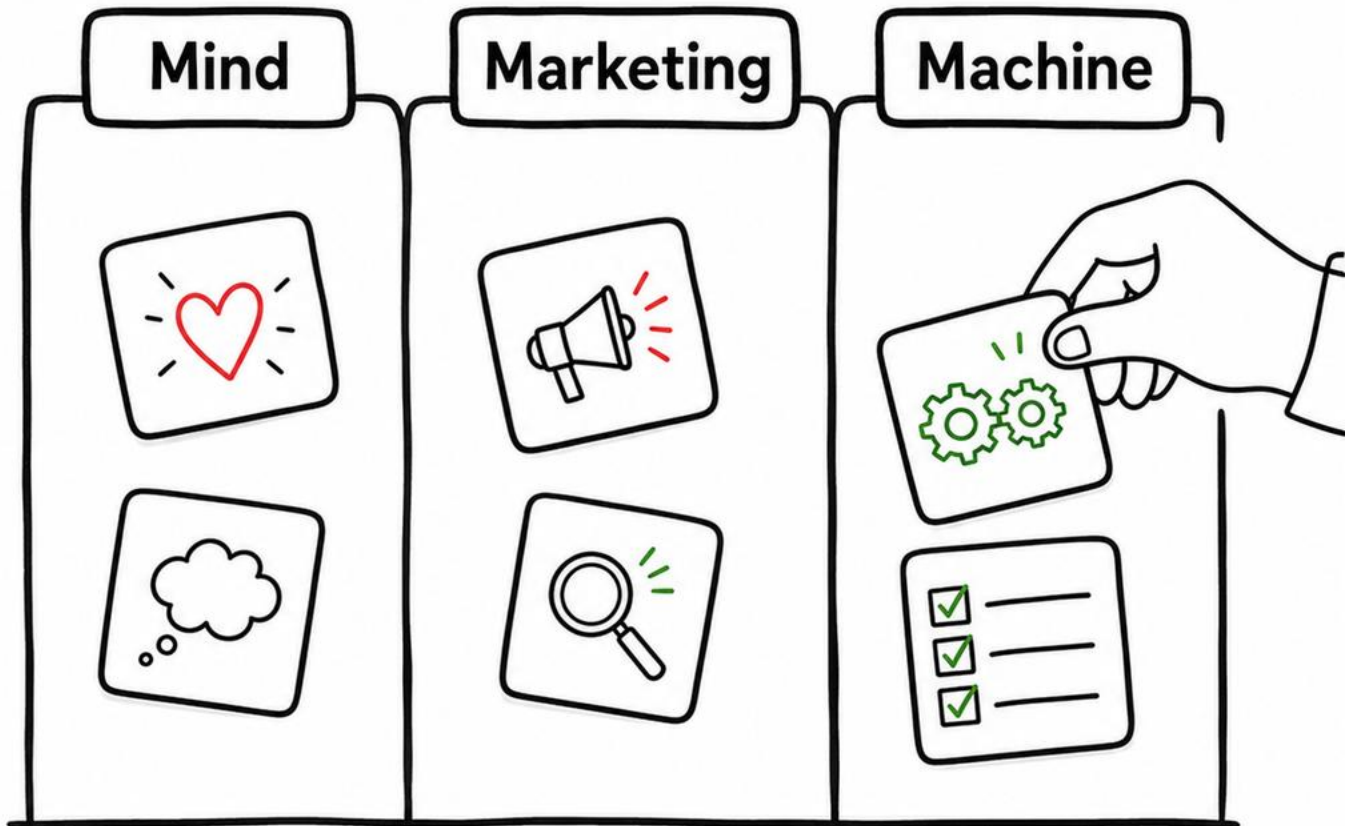

**An ad gets  
clicked.**

**Most teams  
do not lose the clue.  
They lose where  
it should go.**

# Teach the business where each clue belongs.
